

SIEMENS Healthineers SEMINARS during ICIS 2021

To complement the main programme, a one-hour Siemens Healthineers seminar will be broadcast daily on the parallel live stream. These special seminars will be case-based to demonstrate and review particularly interesting cases on each topic.

Delivered by ICIS Fellows who are all recognised experts in their specialist field, these four seminars will enhance the learning experience provided by the ICIS 2021 Annual Teaching Course.

SUNDAY: **Prostate cancer with the new syngo.via prostate MR (AI lesion detection) functionality** - *presented by Professor Anwar Padhani*

MONDAY: **Lung CT nodule detection** - *presented by Dr Luba Frank*

TUESDAY: **Oncological whole-body MRI** - *presented by Professor Giuseppe Petralia*

WEDNESDAY: **Liver cancer** - *presented by Professor Gianni Morana*

Be sure to register for ICIS 2021 now to avoid missing out!
