

# Exhibitors and Sponsors

## Bayer Calantic

As a true life-science company with a heritage of over 100 years in Radiology, Bayer is committed to providing excellence, from innovative products to high-quality services, to support efficient and optimized patient care. Bayer offers a leading portfolio of contrast media for computed tomography, X-Ray, magnetic resonance imaging, devices for their precise administration and informatics solutions. Calantic Digital Solutions is a vendor-neutral, cloud-hosted AI platform which assists radiologists and their teams at critical steps within a patient's treatment journey.

## GE Healthcare

**Where cancer and care connect.**

GE HealthCare unites cancer screening with precision image guided therapy through eco-system of devices and digital solutions powered by AI to create seamless coordination and advance the patient journey throughout the entire pathway from early detection to follow up and assessment.

Our collaborations, solutions and expertise drive optimization and transform personalized cancer care for improved outcomes.

Together, we pursue precise connected care for all.

## Guerbet

In your clinical practice, you have to interpret lots of CT or MR scans for various cancers, either primary or secondary.

At Guerbet, we aim to support you by developing AI algorithms that help in the detection, segmentation and measurements of lesions, focusing on abdominal and urogenital oncological imaging. Our 4 pillars of Research & Innovation are:

- Prostate cancer
- Liver cancer
- Pancreatic cancer
- Bone lesions
